Many hours of grant writing, leadership, budget and program  
Implementation training.

**Please limit responses to the questions to 200 words per question.**

- 1. How do you see the relationships between the City and County Government?** The City and the County represent the same taxpayers with at least 85% of persons being under City and County. We do not want to go back to the way it was 10 years ago with conflict in solving problems and not able to work together. Not us vs them but instead it is we. And that is how I see the relationship currently.
- 2. What are the top three priorities that you see in Saline County and how would you prioritize them?** 1) Increase suitable space for Saline County Health Department, 2) Work to efficiently repurpose empty building spaces within Saline County, 3) At policy level work to meet Saline County citizens' needs and boost economic growth.
- 3. What is your position on reimagining the City/County Building Master Plan?** Great Question! This process is in the 1<sup>st</sup> stage in the

process, and I support the work of listening to taxpayers, getting community. I am excited to actively participate in this on-going process with the city and the County actively making decisions with the community. Due this effort just beginning I am in no position to make any further comments but I was so appreciative of being invited, as the Republican candidate and participating with other elected officials and department heads in the recent review.
